

Anvils

- Anvils were first made of stone as a lithic stone tool, then bronze, and later wrought iron. As Steel became more readily available, Anvils were faced with it.

| Part No. | Size (kgs) | Pkg/Carton | Pcs/Export (Carton) |
|-----------|------------|------------|---------------------|
| TGM-19105 | 5 | 1 | 1 |
| TGM-19106 | 10 | 1 | 1 |
| TGM-19107 | 15 | 1 | 1 |
| TGM-19108 | 20 | 1 | 1 |
| TGM-19109 | 25 | 1 | 1 |
| TGM-19110 | 30 | 1 | 1 |
| TGM-19112 | 50 | 1 | 1 |
| TGM-19113 | 100 | 1 | 1 |
