Our Team

TGM is a family owned, professionally managed enterprise consisting of a dynamic team, working together to attain the highest level of customer satisfaction. All employees, being highly qualified and motivated, contribute significantly to the company's success and growth. Research and development, along with innovation, are an ongoing process for enthusiastic technical, marketing and sales staff.

Our Strength

For our team of dedicated workers, quality is a non-negotiable fact, the complete team at TGM is regularly innovating in product quality enhancement, improving product standards and implementing new ideas towards achieving our cherished goal of a worldwide satisfied customers.

Our Vision

Our vision and aim is set to provide the highest level of customer service, where product reliability is the watchword.

Our Production Facility

We are equipped with modern manufacturing facilities with precision SPM grinding machines, mig welding equipment, multi head milling machines, threading machines, electrical heat treatment, electrical painting, precise jig fixtures and also induction casting furnaces for various types and grades of casting.

Our Quality

Quality is never an accident, it is always the result of intelligent effort. The quality assurance cell at TGM believes in the same policy. Right from the raw material stage down to the final inspection, our quality system ensures strict adherence to specifications at each and every step of the production line. With a captive in house capacity and cooperation from co-workers, we are geared to meet the demands of industrial partners and buyers, in terms of quality, quantity, delivery and commitment.
